

Honoris United Universities is the first private pan-African higher education network, committed to preparing and educating the next generation of African leaders and professionals able to impact regionally in a globalized world.

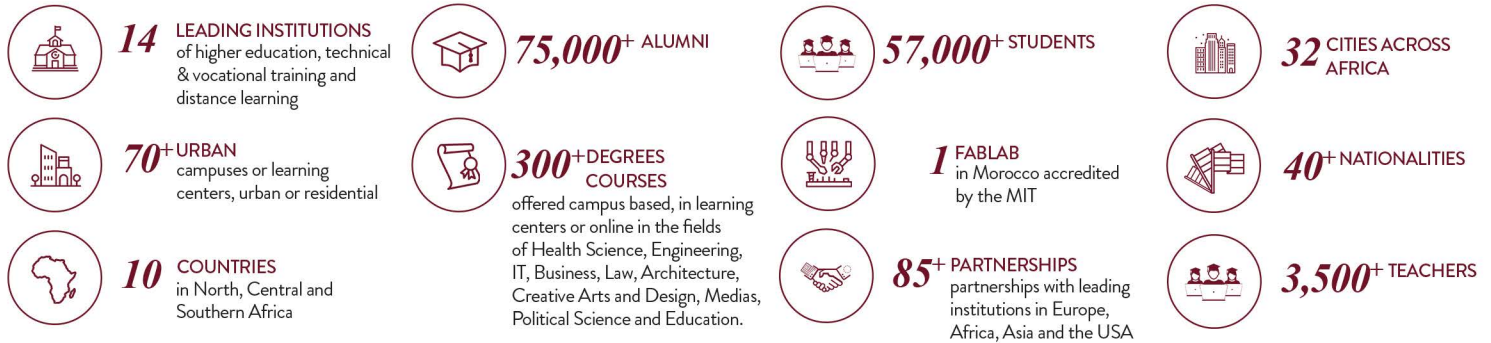

Collaborative intelligence, cultural agility and mobile mindsets and skills are at the heart of Honoris' vision of higher education.

Honoris United Universities joins the expertise of its member institutions to create pan-regional profile graduates that are competitive in today's fast-paced and demanding labor markets.

OUR MISSION

Honoris United Universities is the first pan-African network of higher education institutions that is committed to enhancing the employability of its undergraduates. It focuses on educating for impact - preparing students for professional success in a highly competitive digital global economy. Through academic excellence and a range of practical programs built around a unique concept of collaborative intelligence, Honoris equips its students with cultural agility, a mobile mindset and the ability to meet the needs of today's economies and communities.

KEY FACTS

OUR VALUES

We believe in **collaborative**, **agile** and **mobile** mindsets and skills.

Collaborative Intelligence

Collaborative intelligence is at the heart of our innovative vision of higher education. It brings together the knowledge and practices of several countries and communities to form a new generation of operational leaders, capable of impacting tomorrow's societies and economies. Collaborative intelligence drives our activities and emboldens our purpose-driven mission.

Cultural Agility

In a world of challenges and opportunities, of complexity and speed, we aim to create confidence in responding to shifting skills, thinking and human engagement. Our culturally agile faculty and graduates will help develop Africa's role regionally and globally.

Mobile Employability

We work with employers and aim to understand their needs. We support entrepreneurship and believe in the power of small and medium-sized enterprises. By working together across our member institutions, we create genuinely differentiated and responsive education offerings. We believe in full mobility, in enabling a mobile mindset, ready for regional and international employability and participation.

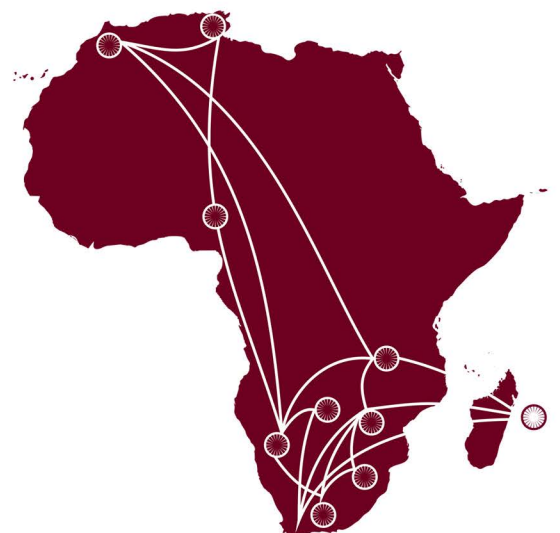

Academic Excellence

At the heart of our commitment to root the aspirations of our communities is an earnest and suitable learning environment with clear academic standards. Our programs, faculty, systems, infrastructure and outcomes echo this core. Independent quality assurance and reviews buttress this belief.

A rich student experience

Our member institutions make a concerted effort to engage the student: professionally in their administrative interactions; ambitiously in their academic participation; and comprehensively in personal development – from our residential offers and online interactions, to events, clubs, networking and campus-based activities.

OUR NETWORK

PROGRAMMES
